Paulistas.

Attn: Mr. Jorge Marquina;

Re: REACH – Intertape Water-Activated tape products (ALL);

REACH (EC No. 1907/2006) is a regulation governing chemicals and materials sold within the European Union. REACH stands for Registration, Evaluation, and Authorization of Chemicals. The Candidate List of Substances of Very High Concern (SVHC) was last updated by ECHA on June 20, 2016. It currently contains 169 substances:

<http://echa.europa.eu/web/guest/candidate-list-table>

The subject Intertape products are defined under REACH as an ‘Article’. Articles are subject to notification if they contain any substance on the Candidate List of Substances of Very High Concern (SVHC) above a threshold of 0.1% by weight. Based upon a review of raw material SDS/MSDS, no substances were found to exceed this threshold in the subject products.

Intertape policy promotes responsible stewardship of product and environmental safety, both in the workplace and in our worldwide community. Please contact us if you have further questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Graw'.
